SUPPLIES 2 or more sets of rings and inserts

OBJECTIVE Fill the Pajaggle Rings from a commingled pile of inserts.

- Place several linked Pajaggle rings (i.e. 7 rings) at each corner of a square.
- Place the corresponding inserts in the center of the square.
- One player from each team races to the center, selects an insert and races back to the rings to fit the insert into the appropriate ring.
- If the insert does not fit any of the rings, the player must send the insert back to the pile and select a different insert.
- Once the insert is properly placed into a ring, the player can then tag the next player who then races to the center and repeats the process.
- The first team to fit all of their inserts into their rings and yells Pajaggle ...WINS.
